CANSCORP

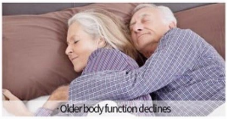
FRESH BREATH AND PEACE OF MIND

- Remove PM2.5——800m^3/h Particle CADR
- Remove formaldehyde——300m^3/h formaldehydeCADR
- Remove allergens - except pollen, dust, mites, bacteria, odors, etc.

haze
formaldehyde
mites
bacteria
smell
pollen

The air quality in the bedroom is particularly important

WE SPENT 1/3 OF OUR TIME IN BEDROOM/SLEEP



·Older body function declines

·Health rishks from Air pollution

·Children are weaker in body immunity

·Sleep all night at night and it glows during the day

CLASSICAL PURE WHITE BEAUTY
BEAUTIFUL LINES TEXTURE BODY

CANSCORP

UNIQUE CHARM. INTERNAL FORCE IS EXTRAORDINARY

CADR value reach 800m^3/h
Purifying 30 ㎡room only need 6 minutes
Applicable area 56-96 ㎡

800 m/h — CDR
area — 56-96m²
6 min

GREAT ACCOMPLISHMENTS, INTELLECTUAL LIFE

DOUBLE FILTER DESIGN, DOUBLE BOOST INTAKE DOUBLE OUTPUT CLEAN AIR

WIND FROM ABOVE. BIG CYCLE

Dual forward wind turbines increase air flow, dislocation blade design
Quickly stirs room air, allowing clean air to flow quickly to every corner

GOOD FITLER GOOD LIFE

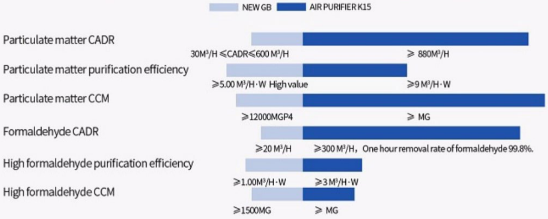
H12 high-efficiency composite clamp carbon cloth filter

888
88
CANSCORP

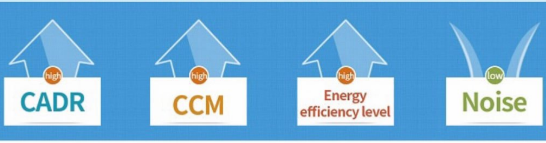
Effective adsorption of formaldehyde,
minimum blocking particles 0.02 microns
(100 times smaller than the upper limit of PM2.5).

THREE HIGHS AND ONE LOW LEADS THE NEW NATIONAL STANDARD

New National Standard VS Air Purifier K15



New GB tell us, a truly effective air purifier=high CADR + high CCM + low noise



high
CADR
high
CCM
high
Energy efficiency level
low
Noise

QUIET AND SOFT

20-66db

Automatically lower fan speed to reduce noise level;Suitable for quiet, healthy sleep

night	P15S	the sound of pouring water	office	vacuum cleaner	car
20db	Sound power value interval	40db	50db	64db	80db

BREATHE NATURALLY

Releases 10 million/cm3 high-concentration negative ions,Prevention of disease, spread of bacteria

Negative ions can be purified, dusted, deodorized, and sterilized for optimum treatment to prevent diseases and spread bacteria.

ACCURATE DETECTION INTUITIVE DIGITAL DISPLAY

PM1.0 real-time display

Japan imported SHINYEI KAISHA particle sensor

Power on stable operation time is 6 seconds, response time is 1 second, monitor particle size down to 0.3 micron

DELICATE ON THE PALM, JUMPING ON THE FINGERTIPS

Wisdom WIFI function, master the remote control

Not arrive home yet, purification first

TRIPLE PROTECTION SAFE AND RELIABLE

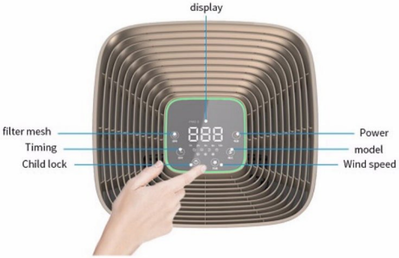
·Open the cover and power off
the machine power off automatically when it’ s cover is opned

·Child lock
prevent children from accidentally touching, causing security risks

·anti fall off switch
dump more than 15°, power off protection

TOUCH SCREEN DESIGN

[Clean up between your fingers]



display

TOP GRILL OUTLET

Safe and intimate to prevent finger

CONVENIENT HANDLES ON BOTH SIDES

Easy to move, flexible and convenient

BOTTOM CASTER WHEEL DESIGN

Free to move, Peace of mind and effort , do not hurt the floor

PRODUCT PARAMETERS

Product Name:Air Purifier	Model:KJ800FK15B	Particulate matter CADR: 800m3/h	Working mode: Intelligent purification
Accumulated particulate matter purification level: P4	Negative ion concentration: >20×106 ions/cm3		Particle purification energy efficiency: ≥10.66
Rated voltage: AC 220V/50Hz	Gaseous pollutants CADR: 300m3/h or more	Rated power: 75W	Standby power: ≤ 2W

Accumulation of gaseous pollutants purification level: F4
Gaseous Pollutant Purifying Energy Efficiency: High Efficiency
Power Cord Length: 2 meters
Noise (sleep profile): 20dB (A)
Product size (length, width, height): 400×400×665mm
Packing size (length, width, height): 491×491×763mm
Anion concentration: 10 million/cm3
Net weight: 14.0Kg
Applicable area: 56~96m2
Noise (highest grade): 66dB (A)
