

# NEW FASHION FOR HEALTHY LIVING

Hydrogen-Rich Cup H8

NEW FASHION FOR HEALTHY LIVING  
HYDROGEN-RICH WATER GLASS 18L

## MOLECULAR HYDROGEN THERAPY

SCIENTIFIC DEVELOPMENTS OF MOLECULAR HYDROGEN THERAPY HAVE ACCELERATED ITS ENTRY INTO THE NATIONAL MEDICAL SYSTEM

1,600 scientific papers related have been published  
85 scientific research projects have been funded by the country

Timeline highlights:

- 2015: Japan's Ministry of Health and Welfare approves molecular hydrogen therapy as an alternative treatment.
- 2020: Shortlisted Medical Systems.
- 2021: Clinical application of hydrogen absorption molecule therapy.

Up to now, experts have calculated that the number of authoritative papers on hydrogen related to health published at home and abroad-1600 items

## HYDROGEN RICH WATER MAKES YOU HEALTHY AND BEAUTIFUL

Drinking more than 1.5L of hydrogen-rich water a day is equivalent to the antioxidant value provided by hundreds of fruits and vegetables

- 3.7 pumpkins
- 756 bananas
- 46 cabbages
- 38 carrots
- 516 apples

## ANYTIME, ANYWHERE

Hydrogen concentration > 1600PPB (5 minutes)  
Hydrogen concentration > 3000PPB (10 minutes)

## PRESSURE BEARING DESIGN

The higher the pressure, the higher the hydrogen content

Pressure > 10KG (1MPa)

## OLED DISPLAY

High-end concise atmosphere

- PPM 0045
- PPM 3000
- Time 02:30
- Time 09:59
- Mobile connectivity icons

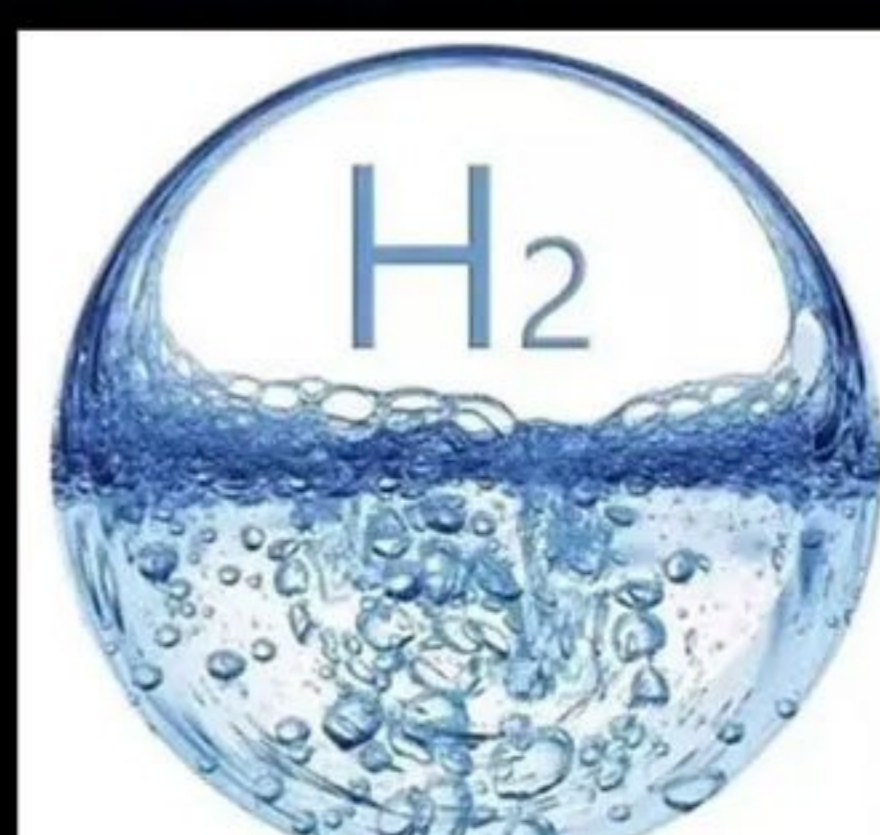

HIGH QUALITY

## HYDROGEN-RICH WATER THE WATER OF YOUTH

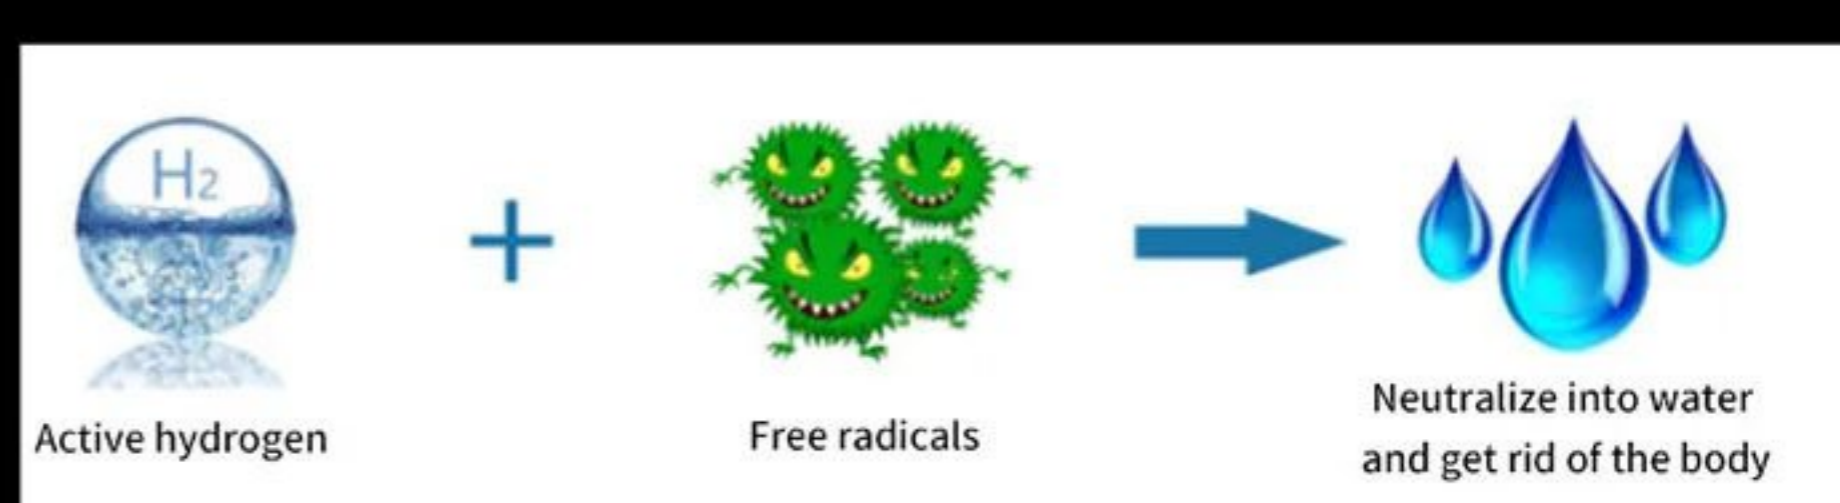

TO REDUCE THE HARM OF FREE RADICALS TO THE BODY, START BY DRINKING HYDROGEN RICH WATER EVERY DAY

**HYDROGEN WATER**  
HYDROGEN RICH WATER, ALSO KNOWN AS "WATER ELEMENT WATER" IN JAPAN, IS NAMED FOR ITS HYDROGEN RICH IONS. IT IS A KIND OF DRINKING WATER THAT MAKES THE WATER CONTAIN STRONG REDUCING POWER, DIFFERENT FROM ORDINARY WATER; IT REMOVES EXCESS REACTIVE OXYGEN SPECIES IN THE BODY THROUGH ITS ANTIOXIDANT AND REDUCING POWER.

**ACTIVE HYDROGEN**  
ACTIVE HYDROGEN IS A HYDROGEN ATOM, A HYDROGEN ATOM WITH EXCESS ELECTRONS, WHICH CAN EASILY PENETRATE EVERY PART OF THE BODY'S CELLS. ACTIVE HYDROGEN IS THE MOST NATURAL ANTIOXIDANT WITH STRONG REDUCING POWER. IT CAN RELEASE EXTRA ELECTRONS, NEUTRALIZE THE ACTIVITY OF FREE RADICALS AND THEN EXCRETE IN THE FORM OF WATER, WITHOUT SIDE EFFECTS AND BURDENS ON THE HUMAN BODY.

**FREE RADICALS**  
FREE RADICALS, KNOWN AS "CELL DESTROYERS", ARE AGGRESSIVE OXYGEN MOLECULES. BECAUSE THEY ARE EXTREMELY UNSTABLE, THEY ARE ALWAYS WAITING FOR OPPORTUNITIES TO STEAL AN ELECTRON FROM OTHER OXYGEN MOLECULES, CAUSING OTHER OXYGEN MOLECULES TO BE DESTROYED. WHEN THE NUMBER OF DESTROYED OXYGEN MOLECULES REACHES A CERTAIN AMOUNT, WRINKLES, ILLNESSES AND OTHER UNDESIRABLE CONSEQUENCES BEGIN TO APPEAR.

Helps expel excess free radicals from the body and makes the body more relaxed.

## CHARACTERISTICS OF HYDROGEN-RICH WATER

- Rich in active hydrogen**: Maintain the internal balance of the body
- Negative potential water**: Has a good reduction ability
- Small molecule water**: Strong penetration, easy to absorb

## RED WINE

## HYDROGEN RICH WATER EXPERIMENT

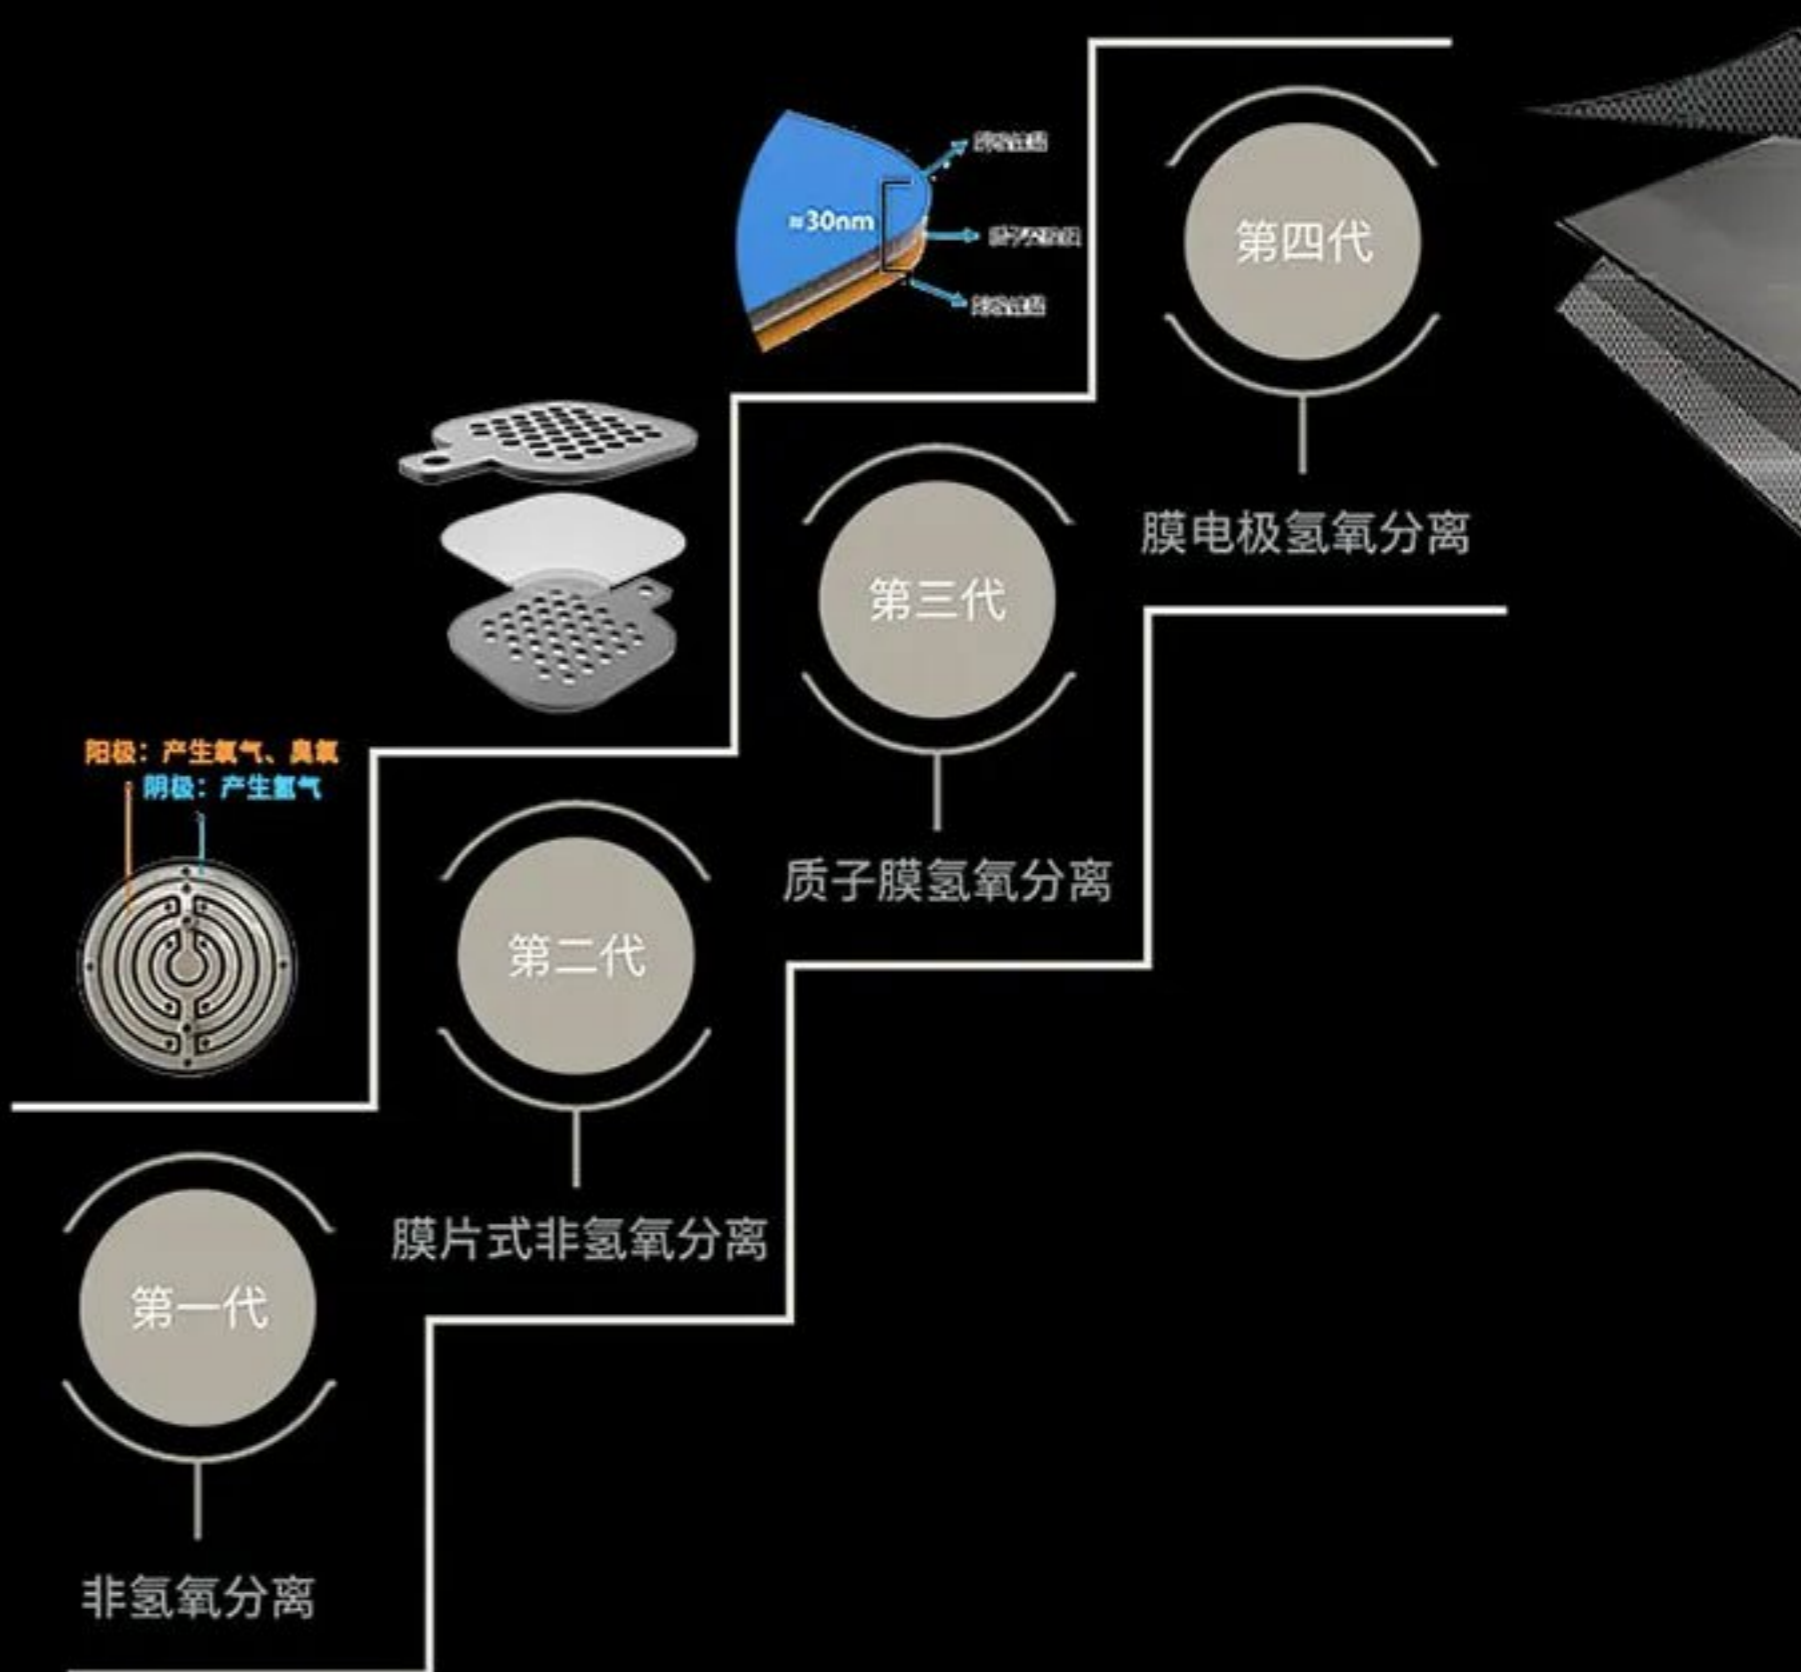

HYDROGEN WATER EXPERIMENT

6 hours after cutting the pears

Experiments have proved that hydrogen water can delay the oxidation reaction to a certain extent

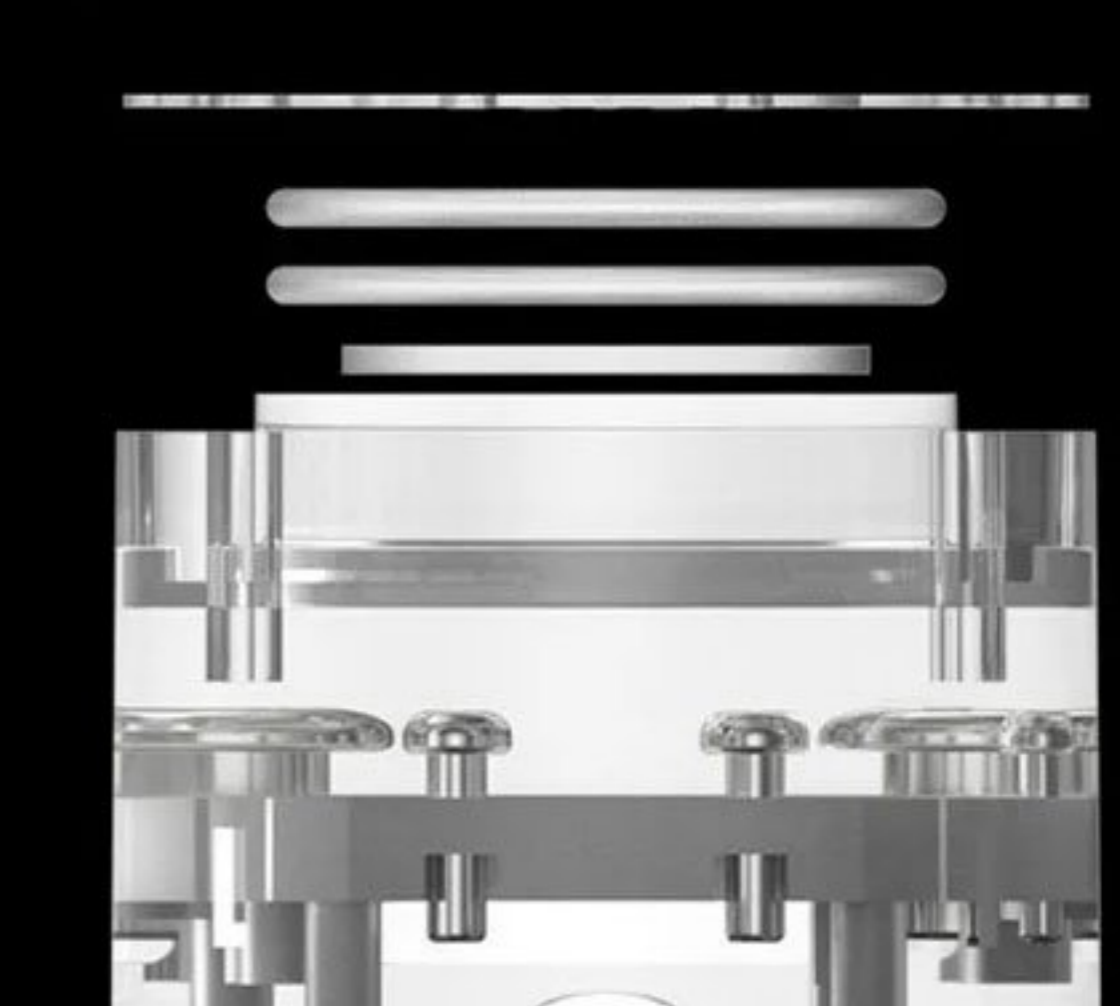

## THE FOURTH GENERATION OF HYDROGEN PRODUCTION TECHNOLOGY

Hydrogen production technology does not stop

## TITANIUM PLATED PLATINUM + MEMBRANE ELECTRODE MATERIAL

The pure platinum coating has no precipitation, you can rest assured if there is a film

Don't worry if you have a membrane

When hydrogen is produced, the water is clear and transparent. SPE electrolysis discharges residual chlorine and ozone.

## No precipitation of pure platinum coating

Imported pure platinum coating long-term electrolysis without heavy metal precipitation
